Research Park

Approximately 115 billion won was invested in this state-of-the-art research facility. Five buildings including the Industrial Research Building (SK Telecom, LG Electronics Research Center, Woongjin R&D Center), Research Support Facility Building and International Vaccination Research Center are located on 70,000 square meters.

Seoul National University Library http://library.snu.ac.kr/index.jsp

Seoul National University Library is the university's main research library. Its holdings number over 3 million volumes, 10,000 academic journals and 33,000 electronic journals. Seven subsidiary libraries specializing in social sciences, business administration, international studies, agricultural, legal, medical and dental studies are located across campus.

University Computer Center http://ucc.snu.ac.kr

The Computer Center operates the largest super-computer for academic research in Korea and a campus-wide wired/wireless broadband network. It has also developed an integrated administrative information system (SNU portal) to process tasks related to education, research and administration efficiently. Faculty, administrative staff and students can use high-tech multimedia facilities for free at the University Computer Center.

Kyujanggak http://e-kyujanggak.snu.ac.kr/index.jsp

Originally founded as the royal library in 1776 in the rear garden of Changdeokgung Palace by King Jeongjo, the Kyujanggak has not only survived the tumult of court intrigue, invasion and colonial rule, but has continued to expand. The Kyujanggak collections now contain over 260,000 items, such as The Annals of Joseon Dynasty (*Joseon Wangjo Sillok*) and the Diary of the Office of Royal Secretaries (*Seungjeongwon Ilgi*), both designated UNESCO World Documentary Heritages. The Kyujanggak houses the Kyujanggak Institute for Korean Studies, a leading center of research, publication, and international, interdisciplinary coordination in Korean studies.

How to use SNU Guide Map

1) First find the name of the building from the list at the bottom of this leaflet.
2) The alphabet next to the building name is the 'Area code' and the number is the 'Building number'.
3) Locate the nearest gate and the relevant area code.
4) Then look for the building number within that area code.

Museum of Art http://www.snumoa.org

The new Museum of Art is a stunning new addition to SNU's campus. Designed by Rem Koolhaas, the art museum links the university with the local community. No doors were built inside this six-story building (floor area approximately 4,500m²) in order to create an organic link between exhibition halls, classrooms, library and lounges. Such openness represents the basic philosophy of the Museum of Art. Local community members are welcome to tour the holdings and participate in ongoing events.

| Visitor's information | **Hours of operation** Monday~Saturday 10:00~18:00 Closed on Sundays, national holidays and SNU Anniversary (Oct. 15)
Group tours Applications should be submitted to the Museum of Art Administration Office in advance. Elementary & secondary school students must be accompanied by a teacher or adult.
